Re: Remedial Investigation Report Addendum – Area 2 Investigation
Standard Chlorine Chemical Company Superfund Site, Hudson County, New Jersey

Dear Mr. Zubrow:

The United States Environmental Protection Agency (EPA) has completed its review of the January 2016 Remedial Investigation (RI) Report Addendum – Area 2 Investigation for Standard Chlorine Chemical Company Site, which was submitted on January 6, 2016. EPA also has completed its review of the revised pages 4-1 and 4-2 and revised Figures 11 and 12 that were submitted via email on March 1, 2016.

The revisions address EPA's comments. The RI Report Addendum – Area 2 Investigation is hereby approved.

Please provide EPA and NJDEP with hardcopies of the revised pages and figures, as well as an updated report cover showing the "revised March 2016" date. Please also provide EPA and NJDEP with disks containing electronic copies of the complete RI Report Addendum including appendices, as approved.

If you have any questions, please feel free to contact me at 212.637.3959.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "Alison A. Hess", is positioned above the typed name.
